

In the Specification

Applicants submit herewith a marked-up specification and substitute specification. Paragraph numbering and section titles have been included in these specifications for convenience and references in the description to the claims have been deleted. The Abstract has also been rewritten to conform to MPEP §608.01.

No new matter has been added by these changes.

In the Drawings

Applicants submit herewith a replacement sheet 1, 4, and 5 as requested by the examiner. Fig. 2 on Sheet 1 has been amended to include clearer lead lines from numerals 61 and 62, and to translate the words in the Figure from German to English. It is believed that the discontinuity in the pressure curves was already shown as between the angles of lines 63 and 64, and lines 61 and 62 in Fig. 2.

In addition, Figs. 7 through 14 on sheets 4 and 5 have been redrawn with improved lines.
